FACE

Skin Needling \$200

Stimulates the production of your own collagen to create a more rejuvenated and healthier skin. Great for reducing acne scarring, stretch marks, fine lines, pigmentation, enlarged pores and blackheads.

Epi Blading \$110

Epi Blading, also known as Dermaplaning, is a gentle method of deeply exfoliating the skin. A surgical blade is worked over the face removing the outer layers of dead skin cells as well as any fine hair (great for blonde hair that cannot be treated with laser).

This treatment is a good alternative for clients with sensitive skin who are not suitable for Microdermabrasion. There is no down time associated with the treatment. Any fine hair removed during the treatment will not be stimulated or grow coarse. For best results we recommend a course of 4-8 treatments with 3-4 week intervals, although results will be seen with each and every treatment.

Peel It \$75 | 30 Mins

This treatment harnesses the exfoliating qualities of either our Piori or Pelactiv facial peels. Dramatically improving the health of any skin type. Upon skin consultation we will decide which peel is best suited for your skin and it's needs.

- Recommended in a course of 6 to achieve the best results. Purchase 5 get 1 free.
- Add on to any facial treatment for \$30
